### **Audit Result:**

Management system implementation has been verified by means of random sampling. This applies to the compliance of workflows with standard requirements and the descriptions in management system documentation. This has been done by means of a sampling approach, by conducting interviews and reviewing the appropriate documentation. Audit findings and recommendations regarding opportunities for improvement have been set below.

The current audit revealed no non conformity for the standard of ISO 9001:2015, ISO 14001:2015 and ISO 50001:2018

The Institution has established and maintained an effective system to ensure compliance with its policy and objectives. The audit confirms in line with the audit target that Institution's management system complies with, adequately maintains and implements the requirements of the standard.

Institution has been recommended for the award of the new certificate on ISO 9001:2015, 14001:2015 and 50001:2018 standards for the following scope: **PROVIDING HIGHER EDUCATION SERVICES TO UNDERGRADUATE & POSTGRADUATE STUDENTS**

The audit findings related to the audited standard are listed in the below annexure to this report. In view of the sampling approach applied to the audit, weaknesses and nonconformities may still exist which have not been identified during the audit.

### **Positive Findings:**

1. Good support from the top management in implementation of QMS, EMS and EnMS.
2. Good initiative for conducting yearly fire drill in the institution.
3. Initiatives taken for Reduction of paper usage by promoting use of technology in library management, accounting system management, HRMS implementation and teaching learning system.
4. Well-developed infrastructure like good library, Smart classroom, laboratory etc.

### **Recommendations and Opportunities for improvement:**

1. Climate change-related risks, such as reduced student attendance during the rainy season, should be addressed.
2. Significant energy users (equipment) should be identified.
3. An energy measurement plan and record for EnMS should include graphical representation for better understanding.
4. Water consumption data should be collected and documented.
